Business Analyst | Operations Analyst | Compliance & Risk Analyst

PROFESSIONAL SUMMARY

Operations professional with 10+ years' experience across banking, telecom and multi-site business operations, specialising in back-office process management, data quality compliance, MIS reporting and team coordination. Reduced data errors by 20%, achieved 100% audit compliance and improved operational turnaround times by 15% through SOP development, workload distribution and stakeholder communication. Regularly deputised for senior operations managers, taking on full team management responsibility, including workload distribution and cross-functional coordination. Currently completing an MSc in Business Analytics at Nottingham Trent University (expected January 2027); eligible for the UK Graduate visa (unrestricted right to work) from course completion. Targeting Business Analyst, Operations Analyst, Process Improvement and Compliance/Risk Analyst roles across UK financial services, engineering and analytics-led organisations.

PROFESSIONAL EXPERIENCE

Primark | Nottingham, United Kingdom

Retail Operations Support (Inventory & Compliance)

July 2026 – Present

- Support high-volume store operations with a focus on stock accuracy, inventory discipline and daily compliance while completing MSc Business Analytics.
- Maintain stockroom organisation and replenishment accuracy; process transactions to full cash-handling and compliance standards; support store safety and operational checks each shift.

Enrich Hair & Skin Solutions | Mumbai, India

Head of Operations

January 2025 – August 2025

- Owned end-to-end backend operations across multiple outlets, including process redesign, inventory forecasting, compliance auditing and performance reporting.
- Redesigned backend workflows and team structures, reducing operational turnaround time by 15% and increasing backend productivity by 15%.
- Developed an Excel-based demand forecasting model that improved stock efficiency by 12% and reduced excess inventory risk.
- Led operational audits across all outlets and strengthened internal controls, achieving 100% compliance. Tools: Advanced Excel, MIS reporting, operational audit frameworks.

Vodafone Idea Limited | Mumbai, India

Manager – Retail Store Operations (Band M1)

July 2024 – December 2024

- Owned inventory control, loss-prevention processes, compliance and performance reporting for a major telecom retail operation.
- Reduced inventory discrepancies by 10% through tighter data controls, Excel-driven analysis and strengthened loss-prevention procedures.
- Produced regular performance and trend reports to support resource planning; executed end-to-end audit and compliance activities meeting all internal compliance standards.
- Continued long-term association with Vodafone (multiple stints 2012–2024), progressing into operations management. Tools: Advanced Excel, inventory systems, compliance reporting.

ICICI Bank | Mumbai, India

Deputy Manager – Operations (Current Assets and Liabilities Operations team)

November 2021 – July 2024

- Managed end-to-end operational processes within the bank's Current Assets and Liabilities Operations team; regularly deputised for the Operations Manager, taking on full team management responsibility, including workload distribution and stakeholder communication, during those periods.

- Owned data quality compliance across the function: streamlined MIS processes and Excel analytics pipelines, reducing data errors by 20% and improving reporting reliability for senior management.
- Designed and implemented Standard Operating Procedures (SOPs) and internal controls that delivered 100% audit compliance across the function.
- Distributed and coordinated daily workload across the operations team; conducted regular process audits and quality checks; coordinated User Acceptance Testing (UAT) for system and process changes.
- Improved backend operational efficiency by 15% and reduced turnaround times through workflow redesign and cross-functional collaboration. Tools: Advanced Excel (MIS, pivot tables, dashboards), internal audit systems.

PET Ozone Clinic | Mumbai, India

Clinic Assistant Manager – Operations

September 2018 – June 2020

- Managed day-to-day clinic operations covering inventory control, cash handling, patient administration and activity reporting.
- Owned stock management for consumption and retail inventory, including regular stock audits; handled banking, petty cash and operational reporting.

Earlier Operations & Service Roles (2012 – 2021)

Held progressive operations and service roles at Reliance Jio (Customer Service Executive), Vodafone (Customer Relationship Manager & Customer Representative) and earlier positions supporting data integrity and process adherence.

- Kept client records accurate and confidential and followed structured processes for resolving enquiries and escalations.
- Logged interactions accurately, followed service protocols and consistently hit quality and process targets.

EDUCATION
